Academic Independence Statement 3

Academic Independence Statement

(Public – Web, Catalog, Grant Appendix)

World STEM Cup Education Foundation is committed to maintaining absolute academic independence across all its programs and competitions.

All academic content, evaluation criteria, and competition outcomes are governed exclusively by independent academic bodies, including the Academic Council and external subject-matter experts.

No donor, sponsor, partner, or external entity may influence:

- Question selection or design
- Scoring methodologies
- Evaluation outcomes
- Advancement or ranking of participants

Financial contributions to the Foundation do not grant any form of academic control, preferential treatment, or decision-making authority.

To ensure integrity:

- Question creation, review, and evaluation are structurally separated
- Conflict-of-interest policies apply to all academic contributors
- Appeals and review mechanisms are available for academic decisions

This framework ensures that participation and success in World STEM Cup competitions are determined solely by merit, knowledge, and academic performance.

Academic independence is a foundational and non-negotiable principle of the Foundation and underpins all governance, academic, and operational decisions.
